Date: June 23, 2026

Re: Call for Nursing Expression of Interest to Support Moncton Area Community Shelters

There is an urgent need for clinical support to assist community shelters in the Moncton area responding to individuals experiencing adverse substance-related effects.

We are seeking nursing staff who may be interested in working additional paid shifts in community shelters. Individuals selected will be provided with authorized prescriber oversight and clinical guidelines to support care delivery.

To be considered, please complete the **Community Clinical Support Availability Assessment Form** by clicking this [link](#) or scanning the QR Code below.

The form will collect information on:

- Professional designation and experience
- Availability for additional shifts
- Relevant clinical skills and certifications
- Interest in supporting this initiative

Completion of the form does not guarantee assignment but will assist in identifying available resources to support our community partners during this time of increased need.

Thank you for your continued commitment to supporting the health and well-being of our communities, particularly during this time of increased need.

If you have any questions, please contact Bob.Kipp@Horizonnb.ca
